

# DATA COLLECTION SOLUTION

## Strategic Industry Reference Group Membership 2018

### SIRG background and purpose

APRA has established the Strategic Industry Reference Group (SIRG) as an advisory group to support APRA's Data Collection Solution (DCS) project that will deliver a replacement solution for the Direct to APRA (D2A) tool through which reporting entities meet their reporting obligations by submitting data to APRA.

#### **Membership appointment**

APRA has selected members for the SIRG based on personal merit, and recommendations made by industry bodies.

#### **Member representation**

Members are representative of stakeholders across APRA-regulated industries and be appointed in a personal capacity for the duration of the DCS project.

#### **Additional SIRG attendees**

The group may invite observers to attend meetings.

Members will be able to nominate one delegate to attend meetings of the SIRG in their absence.

### *Industry representation*
