It includes *Reporting Form SRF 332.0 Expenses* and *Reporting Form SRF 332.1 Investment and Transaction Fees and Costs* and associated specific instructions.

---

<sup>1</sup> For the purposes of this Reporting Standard, an ‘RSE licensee’s business operations’ includes all activities as an RSE licensee (including the activities of each RSE of which it is the licensee), and all other activities of the RSE licensee to the extent that they are relevant to, or may impact on, its activities as an RSE licensee. For the avoidance of doubt, if the RSE licensee is trustee of more than one RSE or defined benefit RSE, the

## Notices

6. If, having regard to the particular circumstances of an RSE, defined benefit RSE or PST, APRA considers it necessary or desirable to obtain information more or less frequently than as provided by paragraph 5, APRA may, by notice in writing, change the reporting periods for the particular RSE, defined benefit RSE or PST.
7. Where APRA has changed the reporting periods under paragraph 6, the RSE licensee must provide the relevant information within the time specified by the notice in writing.
8. APRA may grant, in writing, an RSE licensee an extension of a due date with respect to one or more RSEs, defined benefit RSEs or PSTs within its business operations, in which case the new due date for the provision of the information will be the due date specified on the notice of extension.

*Note:* For the avoidance of doubt, APRA's expectation is that if the due date for a particular reporting period falls on a day other than a usual business day, an RSE licensee will submit the information required no later than the due date.

## Form and method of submission

9. The information required by this Reporting Standard must be given to APRA in electronic format using an electronic method available on APRA's website or by a method notified by APRA prior to submission.

## Quality control

10. The information provided by an RSE licensee under this Reporting Standard must be the product of systems, procedures and internal controls that have been reviewed and tested by the RSE auditor of the RSE, defined benefit RSE or PST to which the information relates<sup>2</sup>. This will require the RSE auditor to review and test the RSE licensee's systems, procedures and internal controls designed to enable the RSE licensee to report reliable information to APRA. This review and testing must be done on:
  - (a) an annual basis or more frequently if necessary to enable the RSE auditor to form an opinion on the reliability and accuracy of information; and

---

<sup>2</sup> Refer also to *Prudential Standard SPS 310 Audit and Related Matters* (SPS 310).

- (b) at least a limited assurance engagement consistent with professional standards and guidance notes issued by the Auditing and Assurance Standards Board as may be amended from time to time, to the extent that they are not inconsistent with the requirements of *Prudential Standard SPS 310 Audit and Related Matters* (SPS 310).

11. All information provided by an RSE licensee under this Reporting Standard must be subject to systems, processes and controls developed by the RSE licensee for the internal review and authorisation of that information. It is the responsibility of the Board and senior management of the RSE licensee to ensure that an appropriate set of policies, procedures and controls for the authorisation of information submitted to APRA is in place.

### **Authorisation**

12. When an officer or agent of an RSE licensee provides the information required by this Reporting Standard using an electronic format, the officer or agent must digitally sign the relevant information using a digital certificate acceptable to APRA.

13. If the information required by this Reporting Standard is provided by an agent who submits the information on the RSE licensee's behalf, the RSE licensee must:

- (a) obtain from the agent a copy of the completed form with the information provided to APRA; and
- (b) retain the completed copy.

14. An officer or agent of an RSE licensee who submits the information under this Reporting Standard for, or on behalf of, the RSE licensee must be authorised by either:

- (a) the Chief Executive Officer of the RSE licensee; or
- (b) the Chief Financial Officer of the RSE licensee.

### **Minor alterations to forms and instructions**

15. APRA may make minor variations to:

- (a) a form that is part of this Reporting Standard, and the instructions to such a form, to correct technical, programming or logical errors, inconsistencies or anomalies; or

- (b) the instructions to a form, to clarify their application to the form,

without changing any substantive requirement in the form or instructions.

16. If APRA makes such a variation, it must notify each RSE licensee that is required to report under this Reporting Standard.

### **Transition**

17. A RSE licensee to which this Reporting Standard applies must report under the old

reporting standard in respect of a transitional reporting period. For these purposes:

**old reporting standard** means the reporting standard revoked in the determination making this Reporting Standard; and

**transitional reporting period** means a reporting period under the old reporting standard:

- (a) that ended before 30 June 2025; and
- (b) in relation to which the RSE licensee was required, under the old reporting standard, to report by a date on or after the date of revocation of the old reporting standard.

# Reporting Form SRF 332.0

## Expenses

### Instruction Guide

This instruction guide is designed to assist in the completion of *Reporting Form SRF 332.0 Expenses* (SRF 332.0).

#### General directions and notes

##### Reporting level

SRF 332.0 must be completed by the RSE licensee for each RSE, defined benefit RSE and PST.

##### Reporting tables

Tables described in this reporting form list each of the data fields required to be reported. The data fields are listed sequentially in the column order that they will appear in the reported data set. Constraints on the data that can be reported for each field have also been provided.

The Unique identifier column indicates which field or fields form the primary key of the table. Where a field has ‘Y’ in the Unique identifier column, this denotes that this field forms part of the primary key for the table. A blank cell in the Unique identifier column means that the field does not form part of the primary key for the table. Any specific combination of values in the fields that form the primary key of a table must not appear on more than one row in that table when reported.

##### Reporting basis and unit of measurement

RSE licensees must report all items on SRF 332.0 in accordance with the Australian Accounting Standards unless otherwise specified.

The total *service arrangement* cost amounts and total *service arrangement* investment cost amounts reported in SRF 332.0 should reflect the total expenses in the RSE, defined benefit RSE or PST financial statements. Amounts in SRF 332.0 should and are to be reported on an accrual’s basis.

Amounts in SRF 332.0 are to be reported on an APRA look-through basis.<sup>5</sup> The look-through chain will end with the expenses from the last *connected entity* to the first entity that is not a *connected entity*.

Amounts in SRF 332.0 are to be reported as percentages or whole numbers. Percentages are to be reported as an unconverted number to two decimal places. For example, 12.34 per cent is to be reported as 0.1234.

Items on SRF 332.0 must be reported as at the end of the reporting period or with respect to transactions that occurred during the reporting period. Unless otherwise specified, report information with respect to transactions that occurred during the reporting period.

These instructions specify the reporting basis and unit of measurement that applies to each item.

## Definitions

Terms highlighted in ***bold italics*** indicate that the definition is provided in *Reporting Standard SRS 101.0 Definitions for Superannuation Data Collections* (SRS 101.0).

## Specific instructions

### Table 1: Payees and service providers

Report all service provider and other payee expenses paid over the reporting period in Table 1 on a look-through basis.

---

<sup>5</sup> APRA look-through means where the expense is in relation to any money, consideration or other benefit given to an entity (the *receiving entity*):

- where the *receiving entity* is the RSE licensee: by the RSE (the *paying entity*);
- where the *receiving entity* is a ***connected entity***: by the RSE; RSE licensee or a ***connected entity*** (the *paying entity*); or
- where the *receiving entity* is not a ***connected entity***: by the RSE or RSE licensee (the *paying entity*);

APRA expects RSE licensees to obtain information about the following in order to report ***service provider*** details in Table 1 and classify relevant cost amounts under the relevant ***expense group type***, ***expense type*** and ***service arrangement engagement type*** categories for reporting in Table 2 and Table 3 of SRF 332.0 details of the *receiving entity*; the relationship between the *receiving entity* and the RSE licensee; the purpose for which the money consideration or other benefit is given (the purpose of the service provided to the RSE); and the way in which the money, consideration or other benefit is used by the *receiving entity*, and any entity with which that entity deals, including the extent to which, for the RSE licensee or a ***connected entity***, the *receiving entity's* profit is attributable to that money, consideration or other benefit in order to classify relevant amounts under the relevant ***expense group type***, ***expense type*** and ***service arrangement engagement type*** categories.

Where a payment is made by the entity or on behalf of the entity to an industrial body, report the details of the industrial body as the service provider for that expense in Table 1, and report the service provider type as '*Industrial Body*'.

For all other expenses, if there is no *connected entity*, report the receiving entity. If expenses are with a *connected entity*, look through to identify if the provision of that service is by a further connected entity (the look-through chain) and report the last *connected entity* in the look-through chain<sup>6</sup>,

RSE licensees do not need to report individual payees and may report one service provider identifier with the Service Provider Name Text as 'multiple payees' where the following conditions are met:

- Service Provider Type is '*Other Payee*';
- Service Provider Relationship Type is 'None';
- Responsible Person Service Provider Relationship Indicator is 'No'; and
- There are no expenses with the payee which are classified as:
  - Expense type is *Political Donation*; or
  - Expense group type is *Marketing* expenses (excluding expense type *Sponsorship*) of more than \$5,000

For accounting adjustments, where the payee of the associated expense can be identified, report the payee, otherwise report the RSE licensee as the payee.

For example, report depreciation against expense type *capital expenditure* with the *service arrangement engagement type* as *accounting adjustment*. Where the payee of the associated expense can be identified, report the payee, otherwise report the RSE licensee as the payee.

# Reporting Form SRF 332.1

## Investment and Transaction Fees and Costs

### Instruction Guide

This instruction guide is designed to assist in the completion of *Reporting Form SRF 332.1 Investment and Transaction Fees and Costs* (SRF 332.1).

#### General directions and notes

##### Reporting level

SRF 332.1 must be completed by the RSE licensee for each RSE, defined benefit RSE and PST.

##### Reporting tables

Tables described in this reporting form list each of the data fields required to be reported. The data fields are listed sequentially in the column order that they will appear in the reported data set. Constraints on the data that can be reported for each field have also been provided.

The Unique identifier column indicates which field or fields form the primary key of the table. Where a field has ‘Y’ in the Unique identifier column, this denotes that this field forms part of the primary key for the table. A blank cell in the Unique identifier column means that the field does not form part of the primary key for the table. Any specific combination of values in the fields that form the primary key of a table must not appear on more than one row in that table when reported.

##### Reporting basis and unit of measurement

SRF 332.1 captures all investment and transaction fees and costs that have been charged to members or otherwise affected member balances during the reporting period. It includes all investment and transaction fees and costs that would appear in the *Periodic Statement* for the superannuation product and fees and costs relating to accessible products available on superannuation platforms.

Amounts in SRF 332.1 are to be reported as whole dollars.

Items on SRF 332.1 must be reported with respect to transactions that occurred during the reporting period.

## Definitions

Terms highlighted in ***bold italics*** indicate that the definition is provided in *Reporting Standard SRS 101.0 Definitions for Superannuation Data Collections* (SRS 101.0).

### **Table 1: Investment and transaction fees and costs**

Report the total investment and transaction fees and costs, for each investment manager and internally incurred, for the reporting period.

For internally incurred investment and transaction fees and costs, report the total fees and costs for each fee type against the RSE licensee.

For each investment manager, report the Asset Class Sector Type, Investment Listing Type and Investment Domicile Type that most closely aligns to the investment with each fund or asset portfolio managed by that investment manager.

For each contract with an investment manager, select one Asset Class Sector Type that best represents the asset sector, listing type and domicile assigned to the investment manager, e.g. if single sector, select the sector, if multi sector, report multi sector. No look through on asset allocation is required.

The investment and transaction fees and costs should align to fees and costs disclosed to members to meet the Australian Securities and Investments Commission's *Regulatory Guide 97 ('Disclosing fees and costs in PDSs and periodic statements')* obligations for superannuation products in relation to fees and costs disclosure requirements for periodic statements. For superannuation platform operators, it is expected that RSE licensees should also utilise fees and costs information required to meet reporting obligations under *Reporting Standard SRS 705.0 Components of net return* (SRS 705.0). For all RSEs, it is expected the total fees and costs reported under SRF 332.1 will broadly reconcile to the weighted average of investment and transaction fees and costs reported under SRS 705.0.
