### Quarterly attestation required

6. An RSE licensee must provide APRA an attestation that the information it last provided APRA on SRF 251.3 and SRF 251.4 under this Reporting Standard is still accurate as at the end of every calendar quarter (i.e. the periods ending 30 September, 31 December, 31 March and 30 June each year) or that the RSE licensee has, or will be, providing updated information to APRA in accordance with paragraph 8.
7. An RSE licensee to which this Reporting Standard applies must provide information required under paragraph 6, within 28 calendar days after the end of each calendar quarter.

### Ad-hoc information required

8. Where there is a change in circumstances that results in information reported on SRF 251.3 and/or SRF251.4, on or after 1 July 2023, to no longer be accurate, the RSE licensee must provide updated information required by this Reporting Standard within 28 calendar days after the end of the calendar quarter in which the change occurred for the periods ending 30 September, 31 December and 31 March.

### Notices

9. If, having regard to the particular circumstances of an RSE and defined benefit RSE, APRA considers it necessary or desirable to obtain information more or less frequently than as provided by paragraph 5, APRA may, by notice in writing, change the reporting periods for the particular RSE or defined benefit RSE.
10. Where APRA has changed the reporting periods under paragraph 9, the RSE licensee

must provide the relevant information within the time specified by the notice in writing.

11. APRA may grant, in writing, an RSE licensee an extension of a due date with respect to one or more RSEs or defined benefit RSEs within its business operations, in which case the new due date for the provision of the information will be the due date on the specified notice of extension.

*Note:* For the avoidance of doubt, APRA's expectation is that if the due date falls on a day other than a usual business day, an RSE licensee will submit the information required no later than the due date.

### **Form and method of submission**

12. The information required by this Reporting Standard must be given to APRA in electronic format using an electronic method available on APRA's website or by a method notified by APRA prior to submission.

### **Quality control**

13. The information provided by an RSE licensee under this Reporting Standard must be the product of systems, procedures and internal controls that have been reviewed and tested by the RSE auditor of the RSE, or defined benefit RSE to which the information relates<sup>2</sup>. This will require the RSE auditor to review and test the RSE licensee's systems, procedures and internal controls designed to enable the RSE licensee to report reliable information to APRA. This review and testing must be done on:
  - (a) an annual basis or more frequently if necessary to enable the RSE auditor to form an opinion on the reliability and accuracy of information; and
  - (b) at least a limited assurance engagement consistent with professional standards and guidance notes issued by the Auditing and Assurance Standards Board as may be amended from time to time, to the extent that they are not inconsistent with the requirements of *Prudential Standard SPS 310 Audit and Related Matters* (SPS 310).
14. All information provided by an RSE licensee under this Reporting Standard must be subject to systems, processes and controls developed by the RSE licensee for the internal review and authorisation of that information. It is the responsibility of the Board and senior management of the RSE licensee to ensure that an appropriate set of policies, procedures and controls for the authorisation of information submitted to APRA is in place.

### **Authorisation**

15. When an officer or agent of an RSE licensee provides the information required by this Reporting Standard using an electronic format, the officer or agent must digitally sign the relevant information using a digital certificate acceptable to APRA.
16. If the information required by this Reporting Standard is provided by an agent who

---

<sup>2</sup> Refer also to *Prudential Standard SPS 310 Audit and Related Matters* (SPS 310).

submits the information on the RSE licensee's behalf, the RSE licensee must:

- (a) obtain from the agent a copy of the completed form with the information provided to APRA; and
  - (b) retain the completed copy.
17. An officer or agent of an RSE licensee who submits the information under this Reporting Standard for, or on behalf of, the RSE licensee must be authorised by either:
- (a) the Chief Executive Officer of the RSE licensee; or
  - (b) the Chief Financial Officer of the RSE licensee.

### **Minor alterations to forms and instructions**

18. APRA may make minor variations to:
- (a) a form that is part of this Reporting Standard, and the instructions to such a form, to correct technical, programming or logical errors, inconsistencies or anomalies; or
  - (b) the instructions to a form, to clarify their application to the form,
- without changing any substantive requirement in the form or instructions.
19. If APRA makes such a variation, it must notify each RSE licensee that is required to report under this Reporting Standard.

### **Transition**

20. An RSE licensee to which this Reporting Standard applies must report under the old reporting standard in respect of a transitional reporting period. For these purposes:

*old reporting standard* means the reporting standard revoked in the determination making this Reporting Standard; and

*transitional reporting period* means a reporting period under the old reporting standard:

- (a) that ended before 30 June 2025; and
- (b) in relation to which the RSE licensee was required, under the old reporting standard, to report by a date on or after the date of revocation of the old reporting standard.

Note: For the avoidance of doubt, if an RSE licensee was required to report under an old reporting standard, and the reporting documents were due before the date of revocation of the old reporting standard, the RSE licensee is still required to provide any overdue reporting documents in accordance with the old reporting standard.

### **Interpretation**

22. In this Reporting Standard, unless an instrument is not disallowable or a contrary intention appears, a reference to an Act, Regulation, Prudential Standard, Reporting Standard, Australian Accounting Standard or Auditing Standard is a reference to the instrument as in force or existing from time to time.
23. Where this Reporting Standard provides for APRA to exercise a power or discretion, this power or discretion is to be exercised in writing.

---

<sup>3</sup> Refer to *Prudential Standard SPS 510 Governance*.

### Instruction Guide

This instruction guide is designed to assist in the completion of *Reporting Form SRF 251.3 Insurance premiums* (SRF 251.3). This form collects information on insurance premiums disclosed to members on a forward-looking basis.

#### General directions and notes

##### Reporting level

SRF 251.3 must be completed for each **group insurance policy** within an RSE or defined benefit RSE in force as at the end of the reporting period.

Reporting ~~in on~~ SRF 251.3 must include each **group insurance policy** that is offered on a default basis and has been reported as such in 'Insurance Default Cover Offered Indicator' (SRF 251.1 Table 1, Column 4).

##### Reporting tables

Tables described in this reporting form list each of the data fields required to be reported. The data fields are listed sequentially in the column order that they will appear in the reported data set. Constraints on the data that can be reported for each field have also been provided.

The Unique identifier column indicates which field or fields form the primary key of the table. Where a field has 'Y' in the Unique identifier column, this denotes that this field forms part of the primary key for the table. A blank cell in the Unique identifier column means that the field does not form part of the primary key for the table. Any specific combination of values in the fields that form the primary key of a table must not appear on more than one row in that table when reported.

## Reporting basis and unit of measurement

Amounts in SRF 251.3 are to be reported as percentages, whole numbers or whole dollars. Percentages are to be reported as an unconverted number to two decimal places. For example, 12.34 per cent is to be reported as 0.1234.

Items on SRF 251.3 must be reported as at the end of the reporting period, or, where an RSE licensee is submitting ad-hoc information, as at the date of the change.

These instructions specify the reporting basis and unit of measurement that applies to each item.

## Definitions

Terms highlighted in ***bold italics*** indicate that the definition is provided in *Reporting Standard SRS 101.0 Definitions for Superannuation Data Collections* (SRS 101.0).
