

Reporting Standard SRS 607.0

RSE Business Model

Objective of this reporting standard

This Reporting Standard sets out requirements for the provision of information to APRA relating to the structure of a registrable superannuation entity (RSE), defined benefit RSE or Pooled Superannuation Trust (PST).

It includes *Reporting Form SRF 607.0 RSE Business Model* and associated specific instructions.

Authority

1. This Reporting Standard is made under section 13 of the *Financial Sector (Collection of Data) Act 2001*.

Purpose

2. Information collected under this Reporting Standard is used by APRA for the purposes of prudential supervision and publication. It may also be used by the Australian Securities and Investments Commission.

Application

3. This Reporting Standard applies to each registrable superannuation entity (RSE) licensee (RSE licensee) in respect of each RSE, defined benefit RSE and pooled superannuation trust (PST) within its business operations¹.

¹ For the purposes of this Reporting Standard, an RSE licensee's 'business operations' includes all activities it conducts as an RSE licensee (including the activities of each RSE of which it is the licensee), and all other activities of the RSE licensee to the extent that they are relevant to, or may impact on, its activities as an RSE licensee. For the avoidance of doubt, if the RSE licensee is trustee of more than one RSE, defined benefit RSE, or PST, the RSE licensee must separately provide the information required by this Reporting Standard for each

Commencement

4. This Reporting Standard commences at the start of the day after the day it is registered on the Federal Register of Legislation.

Reporting periods

5. The RSE Licensee must provide the information required by this Reporting Standard for the reporting periods, by the due dates, set out in the table below.

Notices

6. If, having regard to the particular circumstances of an RSE, defined benefit RSE or PST, APRA considers it necessary or desirable to obtain information more or less frequently than as provided by paragraph 5, APRA may, by notice in writing, change the reporting periods for the particular RSE, defined benefit RSE or PST.
7. Where APRA has changed the reporting periods under paragraph 6, the RSE licensee must provide the relevant information within the time specified by the notice in writing.
8. APRA may grant, in writing, an RSE licensee an extension of a due date with respect to one or more RSEs, defined benefit RSEs or PSTs within its business operations, in which case the new due date for the provision of the information will be the due date on the specified notice of extension.

Note: For the avoidance of doubt, APRA's expectation is that if the due date falls on a day other than a usual business day, an RSE licensee will submit the information required no later than the due date.

Form and method of submission

9. The information required by this Reporting Standard must be given to APRA in electronic format using an electronic method available on APRA's website or by a method notified by APRA prior to submission.

Quality control

10. The information provided by an RSE licensee under this Reporting Standard must be the product of systems, procedures and internal controls that have been reviewed and tested by the RSE auditor of the RSE, defined benefit RSE or PST to which the information

relates². This will require the RSE auditor to review and test the RSE licensee's systems, procedures and internal controls designed to enable the RSE licensee to report reliable information to APRA. This review and testing must be done on:

- (a) an annual basis or more frequently if necessary to enable the RSE auditor to form an opinion on the reliability and accuracy of information; and
 - (a) at least a limited assurance engagement consistent with professional standards and guidance notes issued by the Auditing and Assurance Standards Board as may be amended from time to time, to the extent that they are not inconsistent with the requirements of *Prudential Standard SPS 310 Audit and Related Matters* (SPS 310).
11. All information provided by an RSE licensee under this Reporting Standard must be subject to systems, processes and controls developed by the RSE licensee for the internal review and authorisation of that information. It is the responsibility of the Board and senior management of the RSE licensee to ensure that an appropriate set of policies, procedures and controls for the authorisation of information submitted to APRA is in place.

Authorisation

12. When an officer or agent of an RSE licensee provides the information required by this Reporting Standard using an electronic format, the officer or agent must digitally sign the relevant information using a digital certificate acceptable to APRA.
13. If the information required by this Reporting Standard is provided by an agent who submits the information on the RSE licensee's behalf, the RSE licensee must:
- (a) obtain from the agent a copy of the completed form with the information provided to APRA; and
 - (b) retain the completed copy.
14. An officer or agent of an RSE licensee who submits the information under this Reporting Standard for, or on behalf of, the RSE licensee must be authorised by either:
- (a) the Chief Executive Officer of the RSE licensee; or
 - (b) the Chief Financial Officer of the RSE licensee.

Minor alterations to forms and instructions

15. APRA may make minor variations to:
- (a) a form that is part of this Reporting Standard, and the instructions to such a form, to correct technical, programming or logical errors, inconsistencies or anomalies; or

² Refer also to *Prudential Standard SPS 310 Audit and Related Matters* (SPS 310).

- (b) the instructions to a form, to clarify their application to the form, without changing any substantive requirement in the form or instructions.
16. If APRA makes such a variation, it must notify each RSE licensee that is required to report under this Reporting Standard.

RSE Business Model

Instruction Guide

This instruction guide is designed to assist in the completion of *Reporting Form SRF 607.0 RSE Business Model* (SRF 607.0). This form collects information on the structure of each RSE licensee's business operations.

General directions and notes

Reporting level

SRF 607.0 must be completed for each RSE licensee in respect of each registrable superannuation entity (RSE), defined benefit RSE and pooled superannuation trust (PST), as relevant, within its business operations.

Reporting tables

Tables described in this reporting form list each of the data fields required to be reported. The data fields are listed sequentially in the column order that they will appear in the reported data set. Constraints on the data that can be reported for each field have also been provided.

The Unique identifier column indicates which field or fields form the primary key of the table. Where a field has 'Y' in the Unique identifier column, this denotes that this field forms part of the primary key for the table. A blank cell in the Unique identifier column means that the field does not form part of the primary key for the table. Any specific combination of values in the fields that form the primary key of a table must not appear on more than one row in that table when reported.

Reporting basis and units of measurement

Amounts in SRF 607.0 are to be reported as percentages or whole numbers. Percentages are to be reported as an unconverted number to two decimal places. For example, 12.34 per cent is to be reported as 0.1234.

Items on SRF 607.0 must be reported as at the end of the reporting period.

Definitions

Terms highlighted in ***bold italics*** indicate that the definition is provided in *Reporting Standard SRS 101.0 Definitions for Superannuation Data Collections* (SRS 101.0).
