

Reporting Standard GRS 460.1.G

Exposure Analysis by Reinsurance Counterparty (Level 2 Insurance Group)

Objective of this Reporting Standard

This Reporting Standard sets out the requirements for the provision of information to APRA relating to a general insurer's exposures to reinsurance counterparties.

It includes *GRS 460.1.G Exposure Analysis by Reinsurance Counterparty* (Level 2 Insurance Group) and associated specific instructions and must be read in conjunction with the general instruction guide.

Authority

1. This Reporting Standard is made under section 13 of the *Financial Sector (Collection of Data) Act 2001*.

Purpose

2. The information reported to APRA under this Reporting Standard is used by APRA for the purpose of prudential supervision.

Application and commencement

3. This Reporting Standard applies to the parent entity of a Level 2 insurance group as defined in *Prudential Standard GPS 001 Definitions* (GPS 001). This Reporting Standard applies for reporting periods commencing on or after 1 July 2023.
4. The parent entity of a Level 2 insurance group is required to ensure that each requirement in this Reporting Standard is complied with.

Information required

5. The parent entity of a Level 2 insurance group must provide APRA with the information required by this Reporting Standard in respect of the Level 2 insurance group for each reporting period.

Method of submission

6. The information required by this Reporting Standard must be given to APRA:

- (a) in electronic format using an electronic method available on APRA's website; or
- (b) by a method notified by APRA prior to submission.

Reporting periods and due dates

- 7. Subject to paragraph 8, the parent entity of a Level 2 insurance group must provide the information required by this Reporting Standard in respect of each financial year of the Level 2 insurance group.
- 8. If, having regard to the particular circumstances of a Level 2 insurance group, APRA considers it necessary or desirable to obtain information more or less frequently than as provided by paragraph 7, APRA may, by notice in writing to the parent entity, change the reporting periods, or specify reporting periods, for the particular Level 2 insurance group.
- 9. The information required by this Reporting Standard in respect of a Level 2 insurance group must be provided to APRA:
 - (a) in the case of annual information, within three months after the end of the reporting period to which the information relates; or
 - (b) in the case of information provided in accordance with paragraph 8, within the time specified by notice in writing.
- 10. APRA may, in writing, grant the parent entity of a Level 2 insurance group an extension of a due date in paragraph 9, in which case the new due date will be the date on the notice of extension.

Note: For the avoidance of doubt, if the due date for a particular reporting period falls on a day other than a usual business day, the parent entity of a Level 2 insurance group is nonetheless required to submit the information required no later than the due date.

Quality control

- 11. All information provided by the parent entity of a Level 2 insurance group under this Reporting Standard must be subject to systems, processes and controls developed by the Level 2 insurance group for the internal review and authorisation of that information. It is the responsibility of the Board and senior management of the parent entity of the Level 2 insurance group to ensure that an appropriate set of policies and procedures for the authorisation of information submitted to APRA is in place.
- 12. Under *Prudential Standard GPS 310 Audit and Related Matters* (GPS 310), the Group Auditor of a Level 2 insurance group is not ordinarily required to provide a limited assurance review in relation to information provided by the parent entity of the Level 2 insurance group under this Reporting Standard.

Authorisation

- 13. When an officer, or agent, of a parent entity of a Level 2 insurance group provides the information required by this Reporting Standard using an electronic format the officer, or agent, must digitally sign the relevant information using a digital certificate acceptable to APRA.

14. If the information required by this Reporting Standard is provided by an agent who submits the information on the parent entity of a Level 2 insurance group's behalf, the parent entity of the Level 2 insurance group must:
 - (a) obtain from the agent a copy of the completed information provided to APRA; and
 - (b) retain the completed copy.
15. An officer, or agent, of the parent entity of a Level 2 insurance group who submits the information under this Reporting Standard for, or on behalf of, the parent entity of a Level 2 insurance group must be authorised by either:
 - (a) the Principal Executive Officer of the parent entity of the Level 2 insurance group; or
 - (b) the Chief Financial Officer of the parent entity of the Level 2 insurance group.

Variations

16. APRA may, by written notice to the parent entity of a Level 2 insurance group, vary the reporting requirements of this Reporting Standard in relation to that Level 2 insurance group.

Transition

17. A parent entity of a Level 2 insurance group must report under the old reporting standard in respect of a transitional reporting period. For these purposes:

old reporting standard means the reporting standard revoked in the determination making this Reporting Standard; and

transitional reporting period means a reporting period under the old reporting standard:

- (a) which commenced before 1 July 2023; and
- (b) in relation to which the parent entity of a Level 2 insurance group was required, under the old reporting standard, to report by a date on or after the date of revocation of the old reporting standard.

Note: For the avoidance of doubt, if the parent entity of a Level 2 insurance group was required to report under an old reporting standard, and the reporting documents were due before the date of revocation of the old reporting standard, the parent entity of a Level 2 insurance group is still required to provide any overdue reporting documents in accordance with the old reporting standard.

Reporting Standard GRS 460.1.G

Exposure Analysis by Reinsurance Counterparty (Level 2 Insurance Group)

General instructions

These instructions assist completion of *Reporting Standard GRS 460.1.G Exposure Analysis by Reinsurance Counterparty (Level 2 Insurance Group)* (GRS 460.1.G). GRS 460.1.G collects information relating to the impact on the capital base and each component of the prescribed capital amount of a Level 2 insurance group due to a reinsurance counterparty failure.

These instructions must be read in conjunction with the general instruction guide.

Reporting tables

Tables described in this reporting standard list each of the data fields required to be reported. The data fields are listed sequentially in the column order that they will appear in the reported data set. Constraints on the data that can be reported for each field have also been provided.

Any specific combination of values in a table must not appear on more than one row in that table when reported.

Audit matters

As a result of *Insurance (exemption) determination No. [X] of 2023*, the Appointed Auditor of a general insurer is not required to audit, or provide a certificate in relation to, information provided by a general insurer under *Reporting Standard GRS 460.1 Exposure Analysis by Reinsurance Counterparty* (GRS 460.1). Under *Prudential Standard GPS 310 Audit and Related Matters* (GPS 310) the Group Auditor of a Level 2 insurance group is not required to provide a limited assurance review in relation to information provided by the parent entity of a Level 2 insurance group under GRS 460.1.G. APRA, however, may exercise its power under GPS 310 to require the Appointed Auditor or Group Auditor to undertake a special purpose review of the systems, processes and controls surrounding the completion of GRS 460.1 and GRS 460.1.G, or the data contained within GRS 460.1 and GRS 460.1.G.

Supplementary information

The Level 2 insurance group must ensure that any underlying calculations and assumptions used to complete GRS 460.1.G are made available to APRA upon request from the Level 2 insurance group's APRA responsible supervisor.

<i>Total impact on Asset Risk Charge (after aggregation formula)</i>	Report the change in the <i>Asset Risk Charge</i> due to the failure of the reinsurer reported in <i>name of counterparty (reinsurer)</i> . Total impact on Insurance Risk Charge	Report the increase in Insurance Risk Charge due to the failure of the reinsurer reported in name of counterparty (reinsurer) . This takes into account the impact on the OCL and PL risk charges as a result of the impact of a reinsurer failure on the net outstanding claims provisions and net premiums liabilities. A Level 2 insurance group may use simplifying assumptions as long as those assumptions do not have a material impact on the overall capital coverage outcome.
Total impact on Operational Risk Charge	Report the increase in the Operational Risk Charge due to the failure of the reinsurer reported in name of counterparty (reinsurer) . A Level 2 insurance group may use simplifying assumptions as long as those assumptions do not have a material impact on the overall capital coverage outcome.

Specific instructions

Exposure analysis by reinsurance counterparty (Level 2 insurance group)

GRS 460.1.G must be completed by all Level 2 insurance groups.

Level 2 insurance groups must complete Table 1 if *name of counterparty (reinsurer)* is on the *reinsurer identifier list* on APRA's website.

Level 2 insurance groups must complete Table 2 if *name of counterparty (reinsurer)* is:

- not on the *reinsurer identifier list*; or
- a Lloyd's of London syndicate.

For Table 1 and Table 2, report individual counterparties where the failure of that counterparty results in a five per cent change in capital coverage of the Level 2 insurance group when compared to the capital coverage at the end of the financial year.

For the purposes of GRS 460.1.G, failure means that the counterparty will no longer meet their obligation to the Level 2 insurance group. This means that the Level 2 insurance group makes no recovery from on-balance sheet reinsurance assets and the reinsurer is not replaced on any of its previous or current reinsurance programs.

Reporting Practice Guide GRPG 460 Reinsurance Counterparty Data Collection provides guidance to assist Level 2 insurance groups in completing GRS 460.1.G. Level 2 insurance groups are permitted to use simplifying assumptions where those assumptions do not have a material impact on the resulting *capital coverage* of the Level 2 insurance group.
